Saving Seeds

It’s important to test the seeds before planting.

- Choose a healthy plant. Healthy seeds come from healthy plants.
- Do not dry seeds rapidly because it may not germinate.
- Do not dry seeds under the sun from 11:00 a.m. to 2 p.m. when the heat of the sun is intense.
- Inspect the seeds well before storing them.
- Remove infested seeds to ensure that healthy seeds are spared from pest.

**Floatation method**

Soak the seeds in water, seeds that float are either weak or dead

**Rag doll method**

Spread a newspaper or cloth, place 10 seeds, sprinkle water until the newspaper is soak in water, roll the paper and wait for 3 days and check if seeds have germinated.
